

MICRO

Micro is a Concentrated washing powder containing enzymes, oxygen generators and optical brighteners. Micro is suitable for use in automatic washing machines, Twin tubs and for hand washing. Micro is more effective with Luke warm water, and may be used as a pre soak. pH at 1% is between 10.50 - 11.50

Dilutions

Use 200 g powder per 5 Kg dry washing. Increase dosage to 300-400g for heavily soiled garments. A pre-soak in warm water increases the cleaning abilities of the product. Do not mix with other chemicals. A softener may be used after washing.

GHS Identification:

Warning

PPE
